Maalox[®]-protected aspirin

hygienically superior

Massengill® Powder

the buffered acid douche

Medically sound because it helps maintain vaginal acid pH (3.4-4.5) . . . the vaginal climate in which pathogen-inhibiting Döderlein bacilli thrive.

Hygienically superior because its reduced surface tension enables the odor-banishing solution to spread readily and reach into folds and crevices. Pleasing aroma and soothing. Leaves no medicinal odor. Massengill Powder is available at drug stores in convenient, premeasured Packettes, 3-oz., 6-oz., and 1-lb. Jars. Write for free supply of Packettes.

Formula: Boric acid, ammonium alum, berberine salt, phenol, menthol isomers, thymol, eucalyptol and methyl salicylate.

MASSENGILL The S.E. Massengill Company, Bristol, Tennessee
